

## Bin-lift devices

### Systems for efficient emptying

**Avermann bin-lift devices can be used to empty standard and custom-made waste bins.** They are supplied either as an integral part of the mobile or static compactor or as a stand-alone unit that can be connected to existing machines. Moreover, our BLDs can be equipped with a mechanical lid opener for large waste bins with round lids.

## Options

**You specify the details – for an optimal set-up:**

- Custom-made production for special containers
- Screw-on lifting comb for 120l and 240l large waste bins
- Hydraulic lifting comb for lifting weights of 40 kg and higher
- Stainless steel slide plate, e.g. for acidic or aggressive materials
- 2-cylinder design

**Your benefits:**

- + **Compatible:** Countless possible uses in front of the ring machines Type 10 RM, Type 20 RM and the wet waste press Type 20N RM
- + **User-friendly:** Fast conversion on site
- + **Versatile:** Mobile or static design
- + **Flexible:** Emptying of large waste bins with 660l, 770l or 1,100l with flat lid
- + **Easy to integrate:** Power pack for power supply of the bin-lift devices Type 10/20 RM and the machine
- + **Safe and clean:** Collection tray to prevent soiling on site
- + **Powerful:** Especially high lifting capacity
