

Avermann

Drum screen

Flexible and powerful

Thanks to the different screen lengths, diameters and perforations the AVERMANN drum screen exactly meets your requirements. Retrofitting is possible any time so that the plant can also be adapted to new conditions with hindsight. Due to the possibility of inserting different screen plates several screen fractions can be achieved by only one drum.

Options

**You specify the details –
for an optimal setup:**

- With complete housing incl. sliding door for maintenance purposes
- With changeable screen pads for manual rebuilding to treat different material fractions
- With electronic speed adjustment

Your benefits:

- + Excellent classification of construction-, industrial and paper waste as well as of compost and soil
- + Individual planning and production
- + Reliable even under most challenging operating conditions
- + Solid, torsion-resistant construction
